NON-PROFIT ASSOCIATION · DENMARK

# EARTH WEAVERS

## ECOSYSTEM

A more handmade, local and sustainable world

PROGRAM 2026/27 · WINTER

VISION

# A MORE HANDMADE WORLD

EARTH WEAVERS is a non-profit association and community that brings people together to share and learn crafts, self-sufficiency and sustainable living.

We hold workshops every month, all year round, in the rhythm of the seasons, with our hands in clay, yarn and soil, and with each other as teachers.

ECOSYSTEM is the platform that holds it all together: here we run workshops, share resources and weave community across the country.

If you run workshops yourself, you can create them here, take sign-ups and payments, and send messages.

You can also start your own local community.
